

WINNIPEG WINTER CLUB

REPORT TO MEMBERS ON PLANS FOR . . .

New CLUB

THE new building is designed for comfortable and convenient club purposes as well as athletics. The lounges are spacious and restful and overlook the major sports activities.

The Dining Room is attractive and will be served by the most modern kitchens. The Winter Club will be operated as a place second to none for social entertaining and to bring business associates together. In addition to excellent meals and service there will be all the interest of sports to make the visit of your guests pleasant and entertaining. The top floor has been designed with an eye to club dances and other social functions.

In particular, the Canteen has been enlarged in comparison with the old club, and made much more convenient. It will no longer be a main thoroughfare to the lockers and quick meals and snacks will be served in a quiet, comfortable atmosphere.

The long winter months make the Winter Club a particularly valuable asset for Winnipeg and every thought has been given to make the Winter Club a good place to get healthful exercise and recreation and to form and develop friendships for old and young alike.

CLUB *Life*

Skating

THE large ice surface, 81 feet x 170 feet, is the regulation size to conform with the requirements of amateur competition.

The heart of the skating activity has always been "dancing on ice" at the skating sessions. This easy, graceful sport has always been a feature of the Club. Professional instructors teach beginners and coach those who already qualify.

Close attention is paid to those who enter the competitions. There is a well planned arrangement of time so that the ice is used to the best advantage by all members at times suitable to their age or ability. These times are divided into periods devoted to figures, free skating, dancing and group practise.

A big event of the week is the Monday Night Beginners' Session. This has always been a "must" for all members of the Club who have a pair of skates, regardless of ability or age, for all can enjoy the games period, Paul Jones, etc. With such events and a committee on hand to make introductions, it does not take a "new" member long to become an "old" member.

The annual Winter Club Carnival is the culmination of the whole year's activity, embracing not only the skating section but the whole Club. There are all the activities of any show—costumes, make-up, scenery, music, "stagehands" and a dozen others. This is the moment for which the best of our skaters practice all year when they combine with the best available professional performers to bring to Winnipeg an absolutely first class ice show.

BOWLING, particularly five pin, has definitely come into its own in Winnipeg as well as in the rest of Canada. To take care of this popular and exciting sport the new Winter Club will have six right up-to-date bowling alleys—fifty per cent more playing capacity than we had in the old Club.

Why has bowling become so popular? Well, for several reasons, all of which will be present in our new Club.

First—Pleasant surroundings that will be air-conditioned. You will play in conditions not equalled in Winnipeg.

Second—Everyone loves a competition. We propose to have a Ladies' League, a Men's Business League, a Mr. and Mrs. Competition, Ladies' and Men's Singles for Club Championships, competitions for juniors on Saturday mornings—so there will be lots of opportunity for everyone to take part in competition.

Third—The whole family can play this game. Do you remember the Friday nights in the old Club when the alleys were filled with Mother and Dad and all the children, and how excited junior got when he beat Dad or Mother?

Fourth—Business and socialbility. What better place to bring your out-of-town guest or business acquaintance for lunch and then a game of five pins.

Last—Physical exercise. Where else but our Club can you change into slacks, have a few brisk games, then a shower or a swim after? No wonder you feel like a Million Dollars when you bowl at the Winter Club.

Bowling

Badminton

BETWEEN 350 and 400 individuals played badminton at the Club during the last two seasons before it was sold.

The majority of the Club's badminton players were mainly interested in the social and healthful aspect of the game, but a large number were also very keen on the competitions.

Competitions regularly put on by the Badminton Committee were:

Weekly Mixed Doubles — Round Robin

Weekly Ladies Doubles —
Afternoon Round Robin

Weekly Juniors —
Saturday Morning Games

Annual — Senior Club Championships

Annual — Junior Club Championships

Club teams were also entered in all sections of the City League, in the "Fleming Cup" Ladies' Doubles competition and in the "Hill Trophy" Mixed Doubles competition.

The Club was the venue of the major Badminton Championships held in the City, alternating each year with the Winnipeg Badminton Club in holding the City and District Championships and the Manitoba Badminton Championships. The Canadian Badminton Championships and the Inter-Provincial Team matches, were held on the courts of the Club on three occasions.

A Badminton professional was retained by the Club and complete facilities for the repair of racquets and purchase of equipment were available.

SWIMMING is becoming more and more popular each year. It is recognized as one of the best forms of exercise and recreation. Consequently, in building our new Winter Club, every effort has been made to see that the swimming facilities will be the finest in Western Canada.

Our new pool will be one of the most modern in Canada, size of which will be 60 feet by 25 feet, with ample walking aisles along the sides and at both ends to facilitate such activities as diving, races, etc.

The pool will have a depth of approximately 10 feet at the deep end and $3\frac{1}{2}$ feet at the shallow end. All cold and hot water inlets and outlets will be so placed that the pool will, at all times, be a constant and even temperature. The water will be filtered and chlorinated every ten hours so that the bathers will literally be swimming in water fit to drink.

The diving facilities will consist of standard one meter and three meter boards, with adequate depth of water and also adequate clearance above the boards so that championship diving competitions can be staged.

The Pool schedule will be arranged so that the swimming facilities will be used to the highest degree of efficiency. Periods for boys and girls will be set aside and will be adequately supervised by a competent instructor. In addition to this, private swimming lessons can be arranged for children. Also advanced swimming classes will be held in order to increase the proficiency of those who wish to take part in swimming competition. Adequate time will be set aside for the senior members of the club so that they can swim in due leisure.

LAMP AND STEAM ROOMS

There will be lamp and steam-rooms for both men and women.

*Swimming and
Squash*

SQUASH is the busy man's way to obtain enjoyable concentrated exercise at a definite time. Hence, the popularity of the game, with so many men, both in its "singles" form and also its "doubles." Ladies, as well, play Squash and regard it with the same enthusiasm as many of their male contemporaries.

Squash is played in a walled-in court, with moderately priced racquets and a rubber ball. All four walls are used and the game is packed with action. The "doubles" game functions on the same principle except there are four people in the court instead of two. Consequently it is slightly less strenuous and there is more congeniality and companionship.

Generally a schedule of "booking" games in advance and reserving the court for a definite period eliminates any possibility of wasting time through sitting around waiting for a court to become vacant. Many men play their games during the noon hour, followed by a quick lunch, thereby involving only a minimum of time away from the office. Others prefer to play later in the afternoon, and games at night have always been very popular.

Tournaments are held periodically with visitors from the United States and in the past the Club has sent teams to Minneapolis. Matches and Tournaments are also arranged with other Squash Organizations in Winnipeg.

For anyone who likes to hit a ball with a racquet, who wants good exercise and keen competition, Squash is difficult to beat!

Proposed Scale of Annual Dues

After careful study of present costs the Board of Governors believes the operation of the club can be soundly financed on the following scale of Annual Dues.

Shareholder Member <i>inc wife</i>	<i>1.00</i>	\$75.00
First Senior Member	<i>50</i>	25.00
Other Senior Members	<i>STUDENT 30</i>	20.00
First Junior Member (under 18 years)	<i>30</i>	15.00
Other Junior Members (under 18 years)		10.00
Juvenile Members (under 7 years)	<i>15</i>	5.00
Non-Active Shareholder Member (not participating in sporting activities of the Club)		50.00

Non-Active Member (a member of the family of a shareholder member who does not participate in sporting activities of the Club)	<i>30</i>	\$15.00
Non-Resident Shareholder Member living within 50 to 200 miles of Winnipeg		30.00
Non-Resident Shareholder Member living over 200 miles from Winnipeg	<i>30</i>	15.00
Non-Member Shareholder		15.00

Note: "Senior", "Junior" and "Juvenile" members means relatives of a shareholder member actually residing with the said shareholder member, but excluding men (other than a husband) who have attained the age of 30 years.

MEMBERSHIP: Shareholders and members of their families, as defined in the scale of Annual Dues, are eligible for membership.

APPLICATIONS: Applications for membership and for treasury shares may be made to the Secretary, Winnipeg Winter Club, P.O. Box 943, Winnipeg.

Such applications must be proposed and seconded by registered shareholder members. Further information may be obtained from any of the Governors of the Club or through any member or by writing the Secretary.

ENTRANCE FEE: In the case of present shareholders the rule regarding Entrance Fees is as follows. A share may be transferred from a shareholder member to one of his or her immediate family without payment of Entrance Fee.

If a new member buys a treasury share from the Club no Entrance Fee is charged (at least for the present).

In other cases where a share is purchased in the open market on or after December 15, 1947, an Entrance Fee of \$100.00 must accompany each new application.

Estimated Revenue and Expenditure for First Year of Operation

REVENUE				EXPENSE	
DUES				Administration and General	\$13,000
700 Shareholder Members ...	@	\$75	\$52,500	Badminton and Squash	750
